

LABORATORY OF ATOMIC AND SOLID STATE PHYSICS

Cornell University's Laboratory of Atomic and Solid State Physics is soliciting applications for the Bethe postdoctoral fellowship. This prize fellowship will provide an outstanding theoretical physicist the opportunity to work with theorists and experimentalists in Cornell's physics department. Our group (www.lassp.cornell.edu/people/faculty) has broad interests in hard and soft condensed matter physics, including: biophysics, hydrodynamics, electronic structure theory, materials science, strongly correlated electrons, computational physics, and cold atom physics.

Applications from exceptional women and minority candidates are particularly encouraged.

Applicants should send a résumé, publication list, a research statement, and three letters of recommendation to lassp-jobs@cornell.edu. For full consideration, applications should be received by October 12, 2015. Late applications will be considered on a case-by-case basis.

Bethe Postdoctoral Fellowship in Theoretical Physics at Cornell's Laboratory of Atomic and Solid State Physics

**Deadline for materials:
October 12, 2015**
