

Cornell University

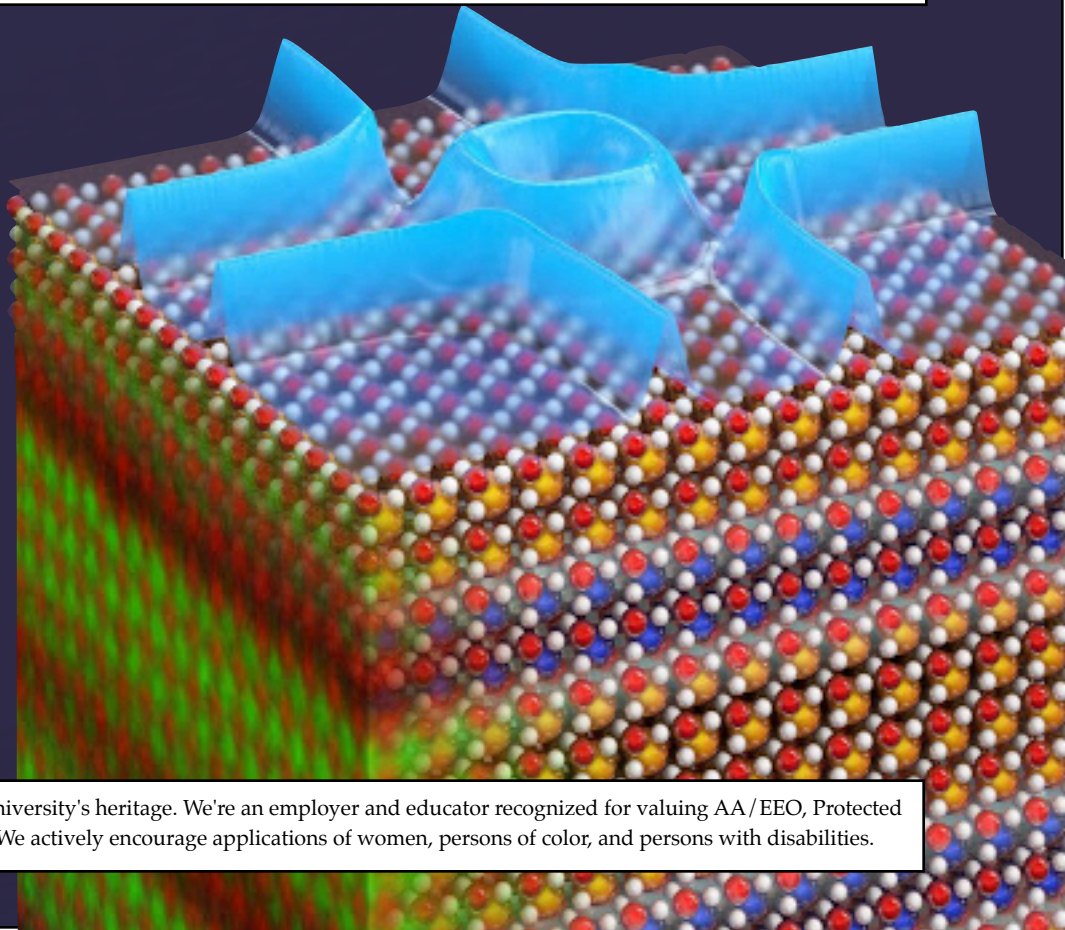

Tenure Track Position in Theoretical or Experimental Physics

The Laboratory of Atomic and Solid State Physics (LASSP) at Cornell University expects to make a faculty appointment in experimental or theoretical physics, to begin July 1, 2016. We encourage applications in cold atom physics, biophysics, hard and soft condensed matter physics, quantum materials, statistical mechanics, x-ray physics and related areas that utilize the experimental and theoretical techniques of condensed matter physics. The search will focus at the assistant professor level, although more senior candidates may be considered. Candidates must hold a doctorate in an appropriate field, must have demonstrated an ability to conduct outstanding research, and show promise for excellent teaching at both the undergraduate and graduate level.

Please be advised that our interview process has begun, but we will continue to consider all complete application submissions until December 31, 2015.
